OBJECTIVE

Highly motivated B.Tech graduate seeking a Cloud Operations Engineer role to leverage my skills in Google Cloud Platform, Python, Linux, Git, Docker, and networking to build secure, scalable, and reliable cloud infrastructure. Eager to contribute to cloud operations, automation, and continuous improvement while growing as a cloud professional.

EDUCATION

- PRAGATI ENGINEERING COLLEGE** Surampalem, India
Bachelor of Technology (B.Tech) in CSE (AIML) CGPA: 7.9
2023 - 2026
- SRINIVASA INSTITUTE OF ENGINEERING AND TECHNOLOGY** Amalapuram, India
Diploma in Electronics and Communication Engineering; Percent: 84.5
2020 - 2023
- BHASHYAM E.M SCHOOL** Kothapeta, India
Secondary School Certificate (SSC); Marks: 525/600
2019 - 2020

TECHNICAL SKILLS

- Programming:** Python, Java, SQL, Bash (Basic)
- Web Technologies:** HTML, CSS, JavaScript, ReactJS
- Database Systems:** MySQL
- Cloud Platform:** Google Cloud Platform, Compute Engine, Cloud Storage, VPC, Identity & Access Management (IAM)
- Networking :** TCP/IP, DNS, Firewalls, Network Security Fundamentals
- AI & ML:** Artificial Intelligence Fundamentals, Machine Learning Fundamentals
- Tools:** Docker, Git/GitHub, VS Code
- System Administration:** Basic Linux System Administration (Redhat,CentOS)

PROJECTS

- Binary Tree Visualization:**
Tech : HTML, CSS, JavaScript
 - Developed an interactive Tree Visualizer web application to demonstrate tree data structures and their operations.
 - Implemented dynamic operations like node insertion, deletion, and traversal (Inorder,Preorder,Postorder) by visual representation.
 - Optimized performance by ensuring efficient tree updates and minimal re-rendering, enabling smooth visualization even with multiple node operations.
 - Useful for students, educators, and quick preparation to understand and demonstrate data structures.
- Multilingual Chat Application:**
Tech : React.js, Node.js, Express.js, Socket.IO, MongoDB, JWT
 - Developing a one-to-one real-time chat application that automatically translates messages between users speaks different languages.
 - Implemented user authentication, language detection, and seamless UI to display original and translated messages.
 - Useful for global collaboration in teams, businesses, and remote work environments and helps to users to learn new languages by comparing.
 - In future, I plan to enhance the application adding group chat, voice translation, and support for more languages.

INTERNSHIPS

- Python Full Stack Developer Virtual Internship : July – September 2024** AICTE/EduSkills
 - Completed a structured virtual internship focused on full-stack web development using Python, HTML, CSS, JavaScript, and MySQL.
 - Gained hands-on experience connecting frontend interfaces with backend logic and databases.
 - Developed interactive web application modules and applied best practices in coding and project delivery.

CERTIFICATIONS

- Google Cloud Certified Associate Cloud Engineer(GCP)**
 - Gained knowledge of Google Cloud Platform (GCP) services in deploying, managing, and monitoring applications on Google Cloud Platform (GCP).
 - Learned fundamentals of cloud security, identity access management, and networking in GCP.
